About MetaArchive Documentation

* 1 Summary:
* 2 Where to find the documentation you need:
* 3 Using and editing this wiki:

Summary:

* Official documentation related to the MetaArchive Cooperative as an organization is on the MetaArchive website.
* Working documentation related to the everyday business of MetaArchive can be found in Google Docs.
* Technical documentation and workflows covering how to do digital preservation is here in Confluence.
* As a principle, we try to make as much of our documentation safely available as we can, so that the larger digital preservation community can benefit.
* By joining MetaArchive, you can contribute to our documentation by signing up with the Community Facilitator.

Where to find the documentation you need:

* **General information** about MetaArchive and Distributed Digital Preservation can be found on the website (although editable versions are in Google Drive)
  * Mission/History/Members/Governance/Committees/Staff
  * Distributed Digital Preservation
  * How and Why to Join MA
  * Documentation (Charter/Member Agreement/Tech Specs/Governance/Audit/20 Cost Qs/Audit/Policy Template)/Workflows/Publications/Presentations/R&D/For Members
  * News and Events
  * MetaArchive Q/A
    * Ask a Question
    * Answer a Question
    * See answers

* **Governance, technical specifications, committee work, and outreach/advocacy** documentation is in Google Drive – (although the latest versions may also be on the website)
  * See the guide: How to Access and Use Google Drive
  * Governance Procedures/Member Agreement/Charter (MetaArchive Cooperative > Governance > Documentation)
  * Network Technical Documentation (MetaArchive Cooperative > Infrastructure > Network > Technical Documentation)
  * Committee work (MetaArchive Cooperative > Governance > Committees)
  * Outreach and Advocacy
  * Research

* **Technical information** (ingest process, setting up and maintaining servers, etc.) is here in this wiki in Confluence
  * How MetaArchive Works includes “big picture” guides on how MetaArchive members preserve digital content, including overviews, technical specifications, and which member institutions use which tools in their workflows.
  * Technical Workflows are step-by-step guides on how to complete certain tasks, including preparing content for ingest, ingesting and monitoring content, and resolving problems.
  * Knowledge Base pages serve as a glossary and include information about individual terms and tools, as well as best practices and additional contextual information that is helpful.
  * Network Administration (restricted) pages include technical workflows for network administrators. If you need access to these pages, please contact the Community Facilitator.
  * Technical Team (restricted) pages include technical documentation for MetaArchive central staff developers. If you need access to these pages, please contact the Community Facilitator.
  * Note that technical information included here is tagged with user roles:
    * For data wranglers
    * For content managers
    * For server administrators

Using and editing this wiki:

* Anyone can read through the public pages of this Confluence site, and suggest changes by contacting the Community Facilitator.
* Members of MetaArchive can contact the Community Facilitator request access to:
  * edit this Confluence site
  * see and edit documents in Google Docs
